From: George Bormuth, Executive Secretary
Board of Public Safety

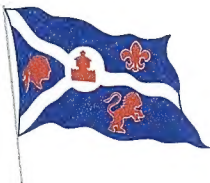

Quite recently the matter of authorization of traffic signal installations has been called to the attention of the Board of Safety. The present Board members were under the impression that all Regulatory Resolutions, including Board approval of new traffic signals, were being forwarded to the City Council for their information and inclusion into their permanent records. It has now been determined that traffic signals were apparently excluded from this procedure by previous administrations and inadvertently overlooked by the present administration.

In the future, in addition to other regulations, all approvals for new traffic signal installations will be forwarded in the normal manner to the City Council. Attached is sample copy of a regulatory resolution which will be utilized.

Following are a list of legally approved traffic signals authorized by the Board of Safety since January 1, 1964:
